Anon & Lambda expressions

Anonymous:

```
{
    public string FirstName { get; set; }
    public string LastName { get; set; }
    public string Street { get; set; }
    public string City { get; set; }

    public string Address => $"{Street} {City}";
}
```

Lambda

```
Func<int, int> square = x => x * x;
Console . WriteLine(square (5)) ;
// Outputs: 25
```
